

# ANIMAL MUSTER CARD - overall appearance, description

dog /bitch.....

code	Body parts	0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	
<b>A</b>	Size	Standard d.53,54 b 50,51	Standard big d.55 , b 52	Standard. small d.52 , b 49	+1cm d. 56 b. 53	- 1 cm d. 51 b. 48	+ 2 cm d. 57 b. 54	- 2 cm d. 50 b. 47		+ 3 cm d. 58 b. 55	- 3 cm d. 49 b. 46	+ 4 cm d. 59 b. 56	- 4 cm d. 47 b. 45				
<b>B</b>	Overall appearance	typic, the right rate	long body construction	short body construction	finer	harder	light - greyhound	heavy to rough	the constitution of the opposite sex	untypical	corresponding to the height at the withers	fine					
<b>C</b>	Head	standard	narrow	finer	coarser	fine	coarse										
<b>D</b>	Muzzle	standard	longer	short	narrow	long	too pointed	weak jaws	uneven ridge of the nose	gibbous	bent ridge of the nose						
<b>E</b>	Stop	standard	slight	too distinctive													
<b>F</b>	Teeth	full dentition	extra teeth	rotated tooth axis						miss P	miss M	miss I	distemper				
<b>G</b>	Bite	scissor	tight scissors	loose scissors	unbearing on one side					clamp	loverbite	overbite	irregular				
<b>H</b>	Ear shape and size	standard	longer	little hair	long	too broad base				soft	banked						
<b>I</b>	Ear fitting and carrying	standard	more wide carried	wide carried	low-wide seeded	turned out											
<b>J</b>	Eyes	standard almond-shaped	eyelids do not stick	too small	too big	round	bulging	sunken	entropium	ektropium							
<b>K</b>	Eyes color	dark brown	brown	medium brown	light brown	light	yellow			varicoloured	predatory						
<b>L</b>	Neck	standard	carried low	carried high	too thick	weak	long	short									
<b>M</b>	Dorsal line	straight solid	longer back	more downward	withers totally undetectable	soft	bent	arched	carp back								
<b>N</b>	Thorax	spacious oval reaching for the elbow	narrower	weak forbreast	shallow	too narrow	barreled										
<b>O</b>	Shoulder	standard	longer	long	arched	more gradient											
<b>P</b>	Croup	standard	long	short	more gradient	gradient	slashed	converted									
<b>R</b>	Forelegs	standard perfectly rounded	soft metacarpus	open paws	hare paw	paws turned out	steep angulation	bent elbows	converging attitude	divergent attitude	French stance						
<b>S</b>	Hind legs	standard perfectly rounded	longer hock	open paws	weakly muscled	paws turned out	steep angulation	overangulation	barreled attitude	cow's attitude							
<b>T</b>	Coat	standard	open coat	sparsely undercoat	shorter	fine structure	wool	strong moulting	missing undercoat	curly	short						
<b>U</b>	Layout of characters	standard	standard characters not very pronounced	unclear bounded	eye circles	buckle between ears	blooming thighs	blooming shoulder blades	light upper lip	light ridge of the nose	too widespread on the head	too widespread on the chest	occurrence in other parts	missing in 1 or 2 parts	missing in multiple parts	total loss	
<b>V</b>	White character	without WCH	slightly distinct	small white character	still in tolerance					above any tolerance							
<b>W</b>	Pigmentation of characters	distinctly rich characters	rich characters	medium rich characters	black-blooming	black on the hind leg	straw yellow	black blooming limbs	gray characters	black color with a rusty touch	other coloring	significant difference in character pigmentation					
<b>X</b>	Tail	required length, form, correctly carried	little hair	too short	too long	hooked to the side hook	carried above the level of the ridge	carried out outside the spinal axis	curled above the level of the back	high seeded	low seeded	form a ring	deformation				
<b>Y</b>	Testicles	mature descend								poorly developed	1-sided cryptorchism	double-sided cryptorchism					
<b>Z</b>	Movement	low trot, firm, unchanged dorsal line	little dynamic	bound running	crumbly running	free dorsal line	free elbows	free hocks	free shoulder	narrow run of the forelegs	narrow run of the hind legs	amble	heavy-footed
